Who we are

Since 1993, Attention Software has provided the world's leading organizations with alarm management and notification software solutions.

What we do

- ENS (Emergency Notification System) software solutions to contact thousands of people within minutes.
- Notification software to alert people to critical situations using Internet and wireless technologies such as email, cell phone text messages and pagers.
- Alarm management software to consolidate the collection of important data from virtually any device or software application.
- All Attention Software products are web-enabled, providing access from any web browser.

Our customers include...

- NASA Ames Research Center
- NASA Goddard Space Flight Center
- National Institutes of Health
- Jet Propulsion Laboratory (JPL)
- Department of Energy
- Los Angeles AFB
- Marine Corps Community Services
- US Naval Construction Force
- US Army Corps of Engineers
- US Census Bureau
- Defense Distribution Center
- Defense Investigative Service
